SUMMARY

Dedicated fullstack developer with over 4 years of experience in PHP + JS development, specializing in Laravel and React building robust, scalable web applications. Passionate about clean, high-quality code and continuously enhancing skills in OOP and RESTful APIs. Experienced in collaborative environments and mentoring junior developers, with a strong focus on delivering innovative solutions.

SKILLS

PHP 8, Laravel, RESTful APIs, OOP, MySQL, Git, React, Codeigniter, Docker, CI/CD, Performance Tuning, Problem Solving, Agile Methodologies, Database Management, Team Collaboration, Airflow, PySpark

WORK EXPERIENCE

GebutDev   **Sep 2022 - Jun 2024**
Full Stack Developer   *Fully Remote*

- Developed and maintained scalable RESTful APIs with Laravel, ensuring flexible code for future updates.
- Optimized database queries for performance and integrated CI/CD pipelines with GitLab to streamline deployment.
- Built frontend solutions using Vue.js, React and Tailwind CSS, ensuring seamless user experiences that align with design specifications.
- Collaborated in an agile team to deliver end-to-end solutions, improving both backend functionality and frontend interface.

Informatika UII   **Dec 2019 - Sep 2021**
Web Developer   *Yogykarta, Indonesia*

- Enhanced existing web applications and redesigned outdated systems using Laravel and Codeigniter, focusing on code efficiency and scalability.
- Integrated GitLab CI/CD pipelines to automate and streamline the development process.
- Contributed to a high-performing team by providing support and leading front-end enhancements with React and Tailwind CSS.

Budi Mulia Dua Foundation   **Mar 2021 - Aug 2021**
Data Engineer   *Yogykarta, Indonesia*

- Developed and maintained ETL pipelines to process real-time social media data, integrating sentiment analysis models for business insights.
- Leveraged Python, Kafka, and Docker to enhance the foundation's data infrastructure.

Laboratorium Terpadu Informatika UII   **Aug 2019 - Jul 2021**
Laboratory Assistant   *Yogykarta, Indonesia*

- Assisted in teaching Application Development (PHP Native, Laravel, and Codeigniter) and Programming & Data Structures (C++ and Python), helping students understand foundational web technologies.

Universitas Islam Indonesia   **Aug 2019 - Jan 2021**
Lecturer Assistant   *Yogykarta, Indonesia*

- Mentored students in Design Thinking (UI/UX Design Figma), fostering practical skills in problem-solving and application design.

EDUCATION

Universitas Islam Indonesia   **Sep 2018 - Jan 2025**
Bachelor of Informatics Engineering   *GPA: 3.76*
